

RWF-2000 Database Release Agreement

INTRODUCTION

RWF-2000 is a video-based database used for scientific research in violence detection, which is proposed by Speech and Multimodal Intelligent Information Processing Lab (SMIIP Lab) at Duke Kunshan University. It is mainly collected from common multimedia platforms (YouTube, Youku, etc.), and contains 2000 video clips selected from 1000 unique video materials. Anyone or group could use it freely.

RULES

1. Without the approval of the SMIIP Lab, the RWF-2000 database is not allowed to be modified and redistributed.
2. Without the approval of the SMIIP Lab, RWF-2000 database is not allowed for commercial purpose.
3. In any case, the images and videos could not be used in a way that may cause damages on human's mental health and personal privacy.
4. The signatory for this license must have the legal authorization on behalf of your institute or organization.
5. To use this database for publishing papers, please kindly cite the following:
Ming Cheng, Kunjing Cai, and Ming Li. "RWF-2000: An Open Large Scale Video Database for Violence Detection." arXiv preprint arXiv:1911.05913 (2019).

COPYRIGHT

This database is freely released for research and educational purposes. We hold no liability for any undesirable consequences of abusing this database. All rights of the RWF-2000 are reserved.
